

ROS Developer Diversity Scholarship Program

After the success of the first ROS Developer Learning Path, we are excited to announce **ROS Developer Learning Path 2.0**. This will be intensive ROS live training for 1 year to give you a strong foundation on ROS and its applications. The course includes *assignments, hackathons, ROS Developer expert talks, Internships* and many more. This course is led by **Lentin Joseph**, who is an author of 9 books in ROS and a Senior ROS Consultant Developer in Qbotics Labs. He has more than 10 years of experience in the ROS framework.

The ROS Developer Learning Path 2.0 focuses mainly on **ROS 2** but it is also giving a good overview of ROS 1 as well.

The duration of the course is **1 year** and we are charging **1500 USD/person** for this course. We are also planning to give scholarships to financially backwards, underrepresented communities. To give free scholarships to students, we are planning to accept sponsorship from companies that are mainly using ROS.

This is an opportunity for you to sponsor the Diversity scholarship program.

Sponsorship Levels

We would like to mention various sponsorship levels for this course.

- Platinum Sponsors:** These sponsors enjoy all the benefits from the course. We are planning to include only 1 or 2 companies as platinum sponsors. They can also add 4 of their employees to this course for free.
- Gold Sponsors:** These sponsors enjoy all the benefits from the course and they can add 3 employees to this course.
- Silver Sponsors:** They can add 2 employees to this course.
- Bronze Sponsors:** They can add 1 employee to this course.
- Collaborators:** These companies can collaborate with this course and suggest new topics to this course. Also, they will be interested to give a job/internship after the completion of this course. They can also sponsor different robot parts for this course as well.

Sponsorship levels and amount (USD)	Platinum \$ 7,000	Gold \$ 5000	Silver \$ 3000	Bronze \$ 1500	Collaborators
The number of employees can add to this course for free.	4	3	2	1	0
